

# PROGRAMME

UIA WORLD CONGRESS  
OF ARCHITECTS  
COPENHAGEN  
2-6 JULY 2023

# UIA WORLD CONGRESS OF ARCHITECTS 2023

## SUSTAINABLE FUTURES LEAVE NO ONE BEHIND

## A PROGRAMME THAT PROMOTES DIVERSITY AND DIALOGUE

The World Congress programme features influential and innovative profiles in the built environment. Our speakers have all been carefully selected for their strong contributions to architecture, science, business and politics, as well as sustainable approaches to new solutions and methods.

### There are:

- **KEYNOTE DIALOGUES** designed as a series of conversations between trailblazing architects and experts from science, business and politics. All keynote dialogues will be moderated by Connie Hedegaard.
- **NEXT GEN** sessions that give space to the young and their voices, to open a window to the future and start the dialogue between generations.
- **SCIENTIFIC PAPER PRESENTATIONS** from all corners of the world – 250 contributors showcase the newest knowledge and push for change by challenging architectural norms and connecting research and practice in new ways.
- **VELUX DAYLIGHT TALKS** exploring the significance of natural light in architecture and feature architects who are actively working with daylighting in their projects.
- **The OBEL AWARD TALKS** highlighting architectural contributions for people and planet, with awardwinning projects that challenge the status quo.
- **REALDANIA TALKS** focusing on how to work cross-sectoral and long-term in the built environment, when solving current challenges in order to secure the quality of life for future generations.
- **AND MUCH MORE...**

**110+**  
SESSIONS

**240**  
HOURS  
OF CONTENT

**15**  
PARALLEL  
TRACKS

### THE VENUE

The Bella Center will create the perfect backdrop for a congress like no other – with dialogue, well-being, exploration and inspiration in focus, facilitating the meeting of likeminded people, intent on changing the whole built environment.

CLIMATE ADAPTATION

RETHINKING RESOURCES

RESILIENT COMMUNITIES

HEALTH

INCLUSIVITY

PARTNERSHIPS FOR CHANGE

***How can architecture shape societies and create potential for a more sustainable, equitable and inclusive future? We know the problems, we have the solutions and we need to act now in order to save the planet.***

## HOW CAN ARCHITECTURE CONTRIBUTE TO THE UN 17SDGS?

The 6 congress themes are based on a dual commitment to environmental and social sustainability. They cut across and synthesize content from the 17 Sustainable goals without sacrificing the complexity and interdependency of the sustainability agenda in the built environment.

**The 6 themes are:**

DESIGN FOR CLIMATE ADAPTATION  
DESIGN FOR RETHINKING RESOURCES  
DESIGN FOR RESILIENT COMMUNITIES  
DESIGN FOR HEALTH  
DESIGN FOR INCLUSIVITY  
DESIGN FOR PARTNERSHIPS FOR CHANGE

They form the congress topics as well as the innovations discussed in the scientific paper presentations on the science track.

**Read more about the congress themes**

**[uia2023cph.org/6-congress-themes](https://uia2023cph.org/6-congress-themes)**

# SPEAKERS

## KEYNOTE HIGHLIGHTS

**CONNIE HEDEGAARD**  
Master of Ceremonies

**MARGRETHE VESTAGER**  
Executive Vice-President  
EU Commission

**BJARKE INGELS**  
Architect and Founder, BIG

**FRANCIS KÉRÉ**  
Founder & Principal, Kéré Architecture,  
2022 Pritzker Prize winner

**METTE SKJOLD**  
Architect and CEO, SLA

**PARTHA DASGUPTA**  
Emeritus Professor of Economics,  
University of Cambridge

**Jerome Foster II**  
Activist, Youngest Member of the White  
House Environmental Justice Advisory  
Council, Software Engineer,  
Co-Founder at Waic Up

**NYASHA HARPER-MICHON**  
'Archivist', Architect,  
LinkedIn Top Voice Green,  
Business Strategist, Educator,  
Speaker, Writer

**DORTE MANDRUP**  
Founder, Creative Director,  
Adjunct Professor & Architect MAA

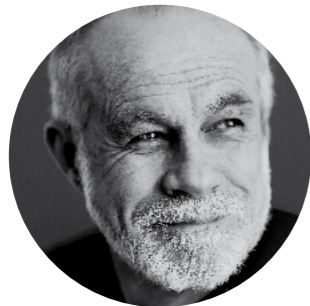

**KUNLE ADEYEMI**  
Founder & Principal, NLE

**HANS JOACHIM SCHELLNHUBER**  
Founder & Managing Director,  
Bauhaus Earth

**CHRIS DOWNEY**  
Architect & Founder,  
Architecture for the Blind

**CARLOS MORENO**  
Professor, University of Sorbonne,  
Paris

**CHRISTIAN BENIMANA**  
Senior Principal, MASS Design Group,  
Director of The African Design Centre

**MARIA P. NEIRA**  
WHO Director,  
Department of Environmental,  
Climate Change and Health

**JIM HAGEMANN SNABE**  
Chairman, Siemens,  
World Economic Forum Trustee

**ELIZABETH TIMME**  
Founder & Director of Design,  
Office of: Office

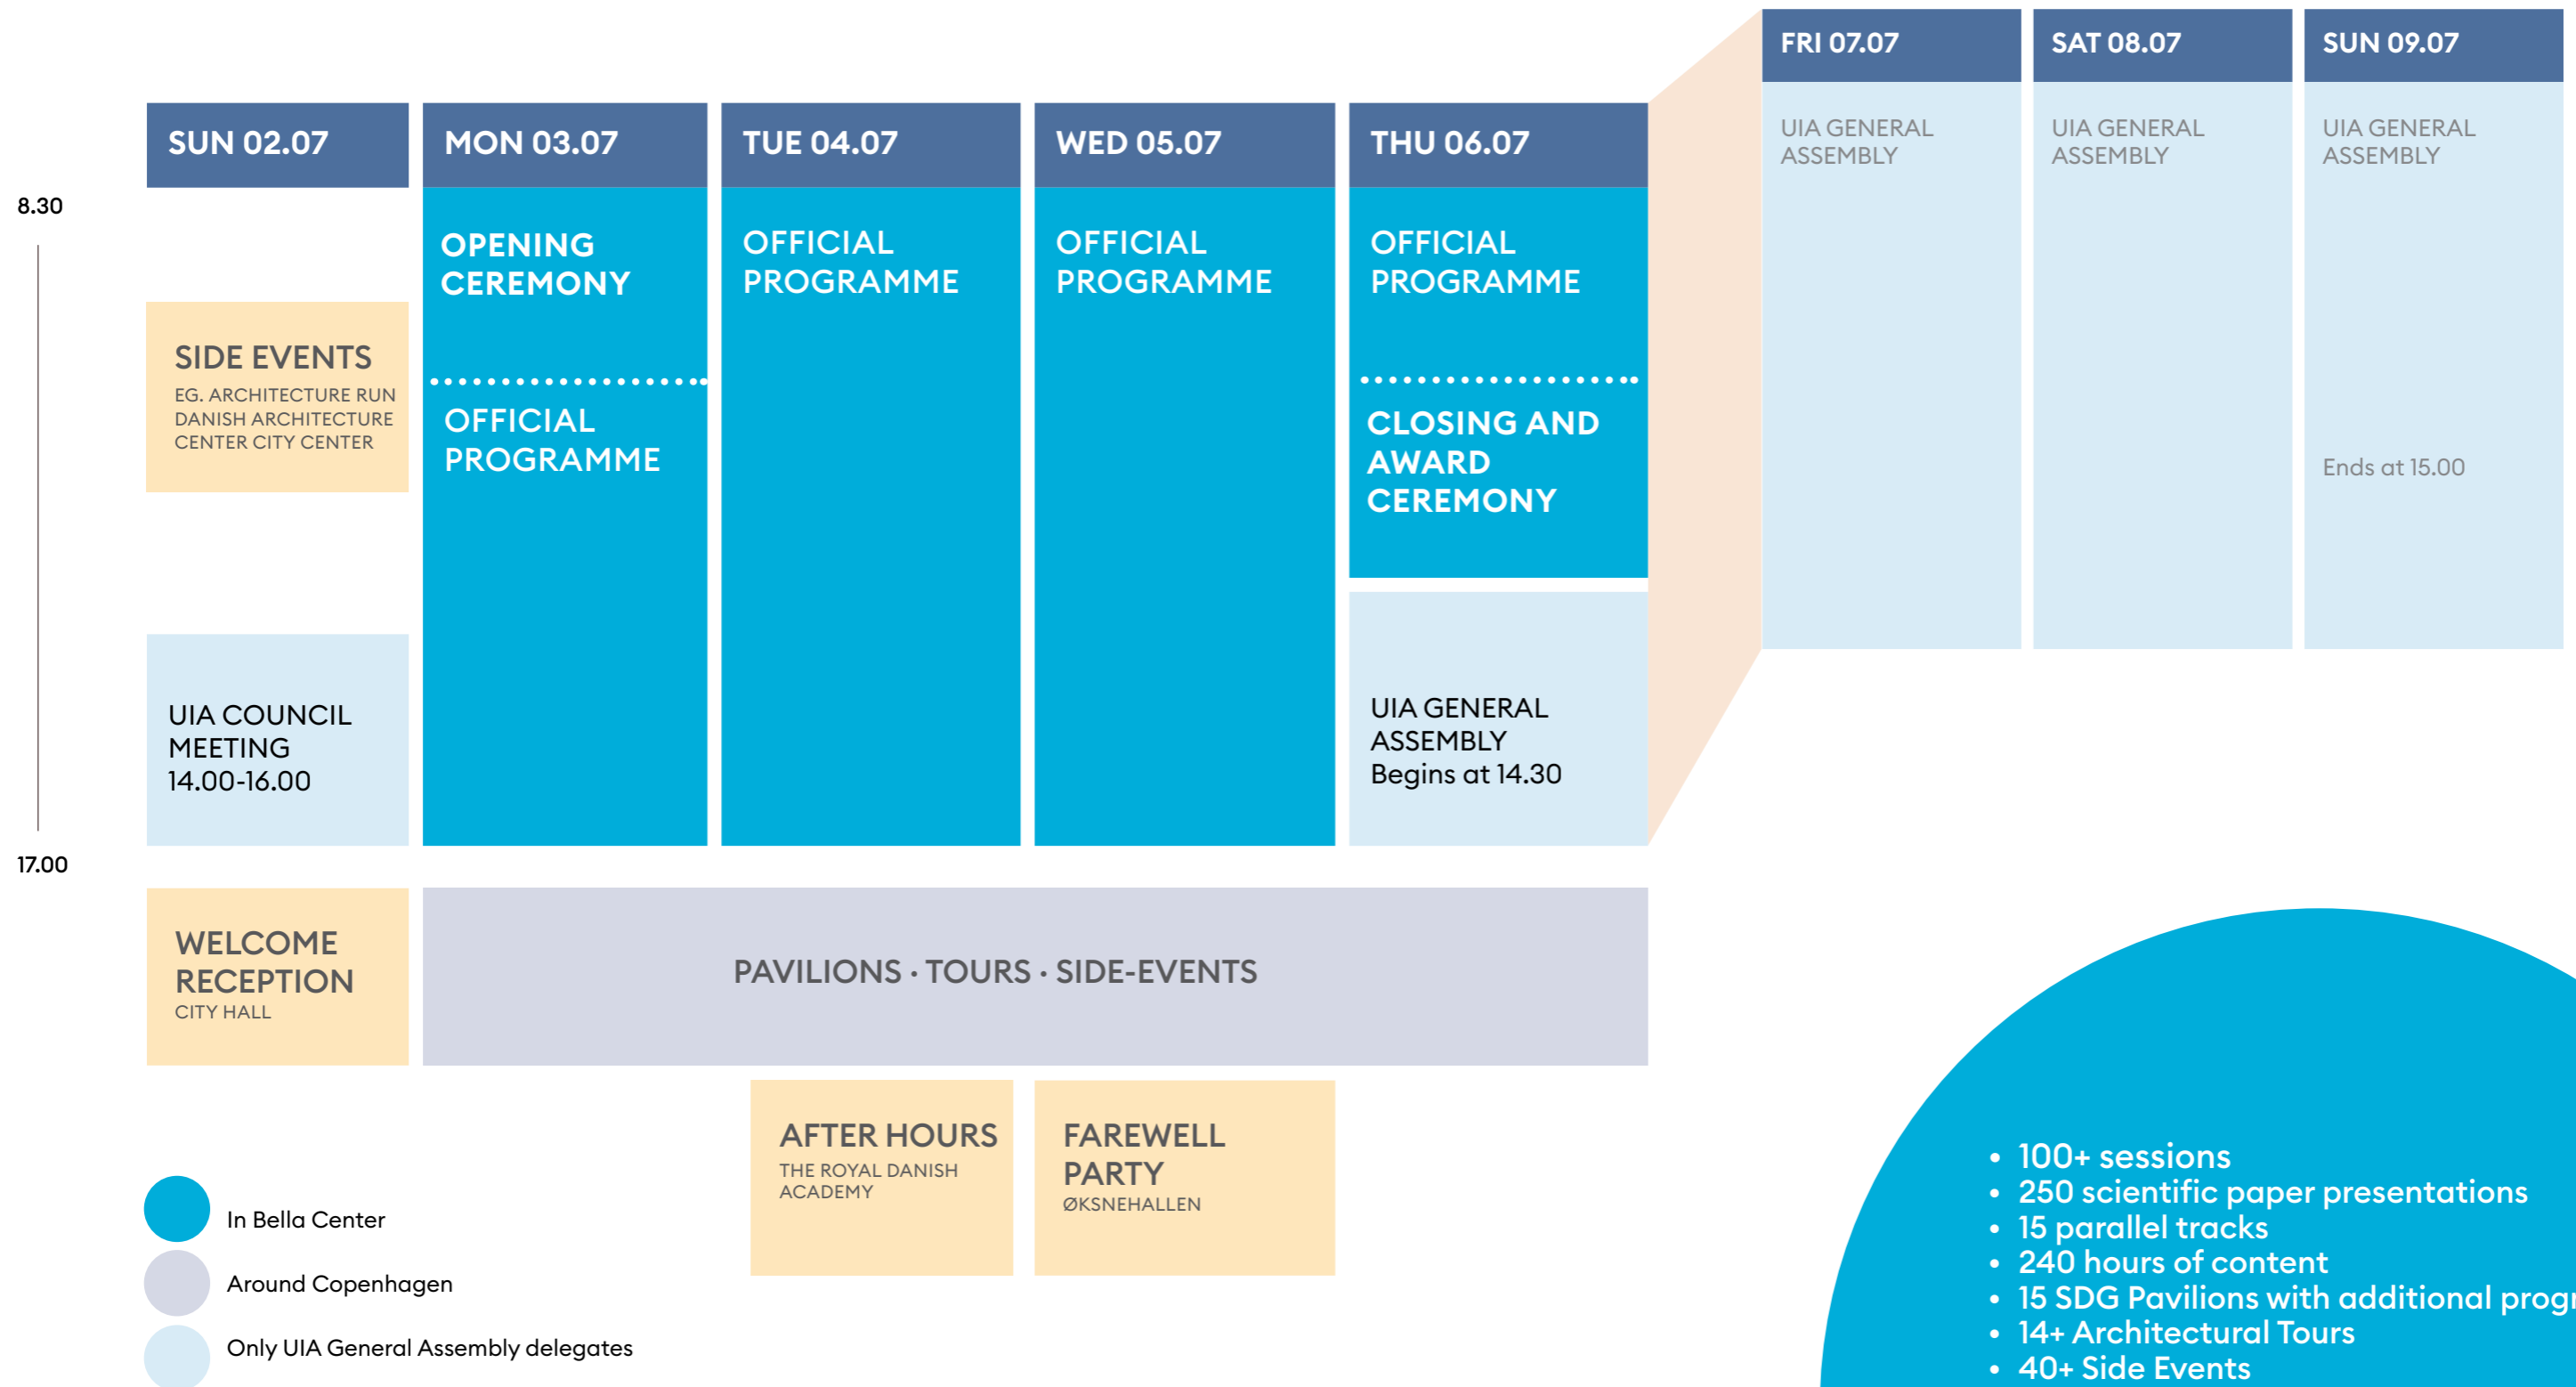

**JESICA AMESCUA CARRERA &  
MARIANA ORDÓÑEZ GRAJALES**  
Architects & Founders, Comunal

And many more: <https://uia2023cph.org/speakers/>

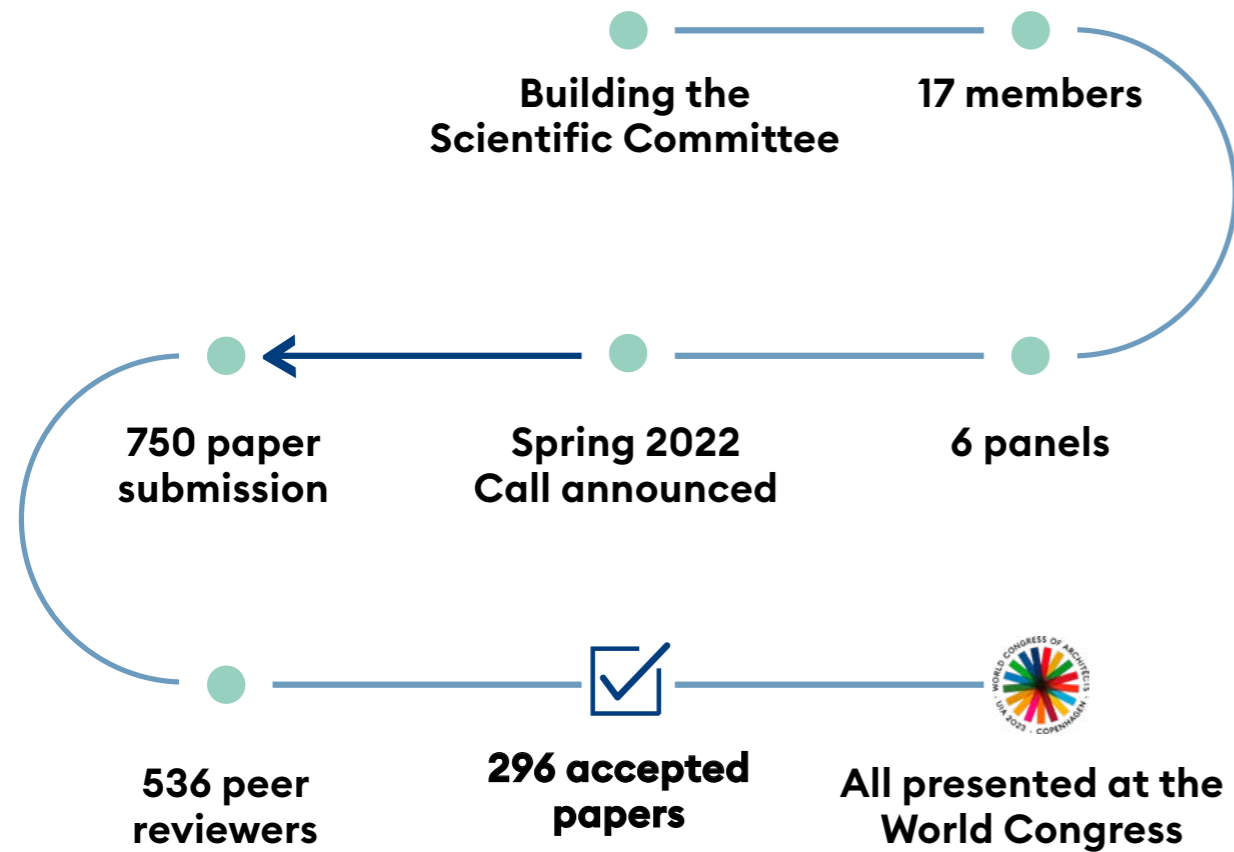

# PROGRAMME OVERVIEW

## 2-9 JULY 2023

- 100+ sessions
- 250 scientific paper presentations
- 15 parallel tracks
- 240 hours of content
- 15 SDG Pavilions with additional programme
- 14+ Architectural Tours
- 40+ Side Events
- Welcome, After Hours, Farewell Party

# THE SCIENCE TRACK

**AROUND 2,000 PEOPLE HAVE BEEN INVOLVED OVER THE LAST 2,5 YEARS TO BRING YOU THE LATEST RESEARCH.**

Engage with the latest knowledge and challenges regarding architecture and sustainability today. Feel the need for change and how research and practice connect in new ways.

The detailed programme for the 6 science tracks will be added to the Bella Center programme closer to the congress.

**More information**

## Members of the Scientific Committee

The scientific paper presentations are a unique opportunity to catch up and engage with the latest research on the pertinent questions affecting architecture and sustainability today. Following an open call, these challenges have been explored over the last years by a global community of architects, scientists and members of NGOs.

Focusing on the 6 congress themes and curated by the Scientific Committee, this process involved close to two thousand people. During the congress the gathered insights will be presented and discussed with the audience.

# SUNDAY JULY 2nd.

17.00 WELCOME RECEPTION Location: Copenhagen City Hall

# MONDAY JULY 3rd.

PROGRAMME IN PROGRESS - MAY EDITION

PLENARY	
9.00	<b>OPENING CEREMONY 9.00-10.45</b> Welcome & introduction to 4 days of moving architecture towards a sustainable future.

# EXHIBITION FLOOR PROGRAM

You will be able to experience great content via our partners and Next Gen Teams throughout the Exhibition. For example:

**PITCH & PANEL SESSIONS - HOW DO WE SEE THE FUTURE?**  
STUDENTS & ENTREPRENEURS

**DIALOGUES ON URBAN CHANGE**  
DAC & ARKA.VIDEO

**TOWARDS A NEW ETHICS OF YOUTH INCLUSION**  
UIA SCIENCE TRACK & STUDENTS

**BUILDING BIOGRAPHIES: TALES OF (UN)SUSTAINABILITY**  
120 Hours

**WHAT ABOUT UTOPIA (Student & Youth Exhibition)**  
KADK CLIMATEGROUP, CAROLINE LINDBERG, TUVA BELFRAGE AND MORE

**A SOCIETY BUILT FOR EVERY BODY (Performances, inspiration, innovation)**  
BEVICA, KADK, GLOBAL STUDENT SUMMIT AND MORE

**MANY MORE FLOOR SESSIONS TO COME...**  
REALDANIA, VELUX, DANFOSS AND OTHER PARTNERS  
HAVE SESSIONS IN THEIR EXHIBITION STANDS

DTU  
NEXT GENERATION CITY ACTION

# EXPLORE THE SDG PAVILIONS

See all pavilions  
[uia2023cph.org/pavilions](http://uia2023cph.org/pavilions)

## BIO-CENTER

Architects Without Border's pavilion is an interpretation of one of their actual development projects, the "Bio-centre". Through basic sanitary functions, a bio-center provides crucial services in a densely packed slum – while creating a social focal point.

06 Clean Water and Sanitation

## FOOD FUTURES IMAGINED

Different lenses on food systems. The pavilion uses virtual spatial design to guide the audience through an exhibition that explores the content of the publication in a gallery-like experience. Users take part of the exhibit space by using their own mobile devices through virtual reality features.

11 Sustainable Cities and Communities

## LIVING PLACES COPENHAGEN

Living Places Copenhagen – the first seven prototypes of the concept, show how we can develop sustainable buildings with a three times lower CO2 footprint and a first-class indoor climate. The concept holds the lowest CO2 emissions in Denmark, demonstrating that we do not have to wait for future technology to build more sustainably.

11 Sustainable Cities and Communities

## PLASTIC PAVILION – BUILDING SUSTAINABLE SOCIETIES

Future building materials need to be sustainable, meaning that they are reusable or recyclable, and preferably made from recycled content. Many of the synthetic materials, plastic, and other polymers have these properties while at the same time being durable, lightweight, cheap, and easy to shape.

12 Responsible Consumption and Production

## BRICKS IN COMMON

The brick pavilion 'Bricks in Common' brings our attention to this double bind: brick has a potentially long lifespan – it is, however, also a very energy-consuming material to produce. If we want brick to play a larger part of the sustainable development, we need further innovation, development, and more design for disassembly.

12 Responsible Consumption and Production

## FROM 4 TO 1 PLANET

How do we reduce climate impact from residential buildings to a fourth of the current level without compromising on attractiveness and liveability?

Find three different answers to this question in our three pavilions, developed by next generations architects.

11 Sustainable Cities and Communities

Læs mere om pavillonerne og find et digitalt kort her

Read more about the pavilions and find a digital map here

## THE SDG PAVILIONS

The SDG Pavilions are 1:1 experimental projects made for the World Capital of Architecture and the UIA World Congress of Architects in Copenhagen. The explorative pavilions welcome visitors on selected locations in Copenhagen, including the city's iconic harbour front.

# EXPLORE TOURS AND EVENTS

## EXPLORE THE ARCHITECTURE

JULY 3 - 6 2023, 15:30-18:30

### ØRESTAD – A MODERNIST PLAN WITH FUTURE-ORIENTED SOLUTIONS

Take a metro and walking tour of Ørestad, an entirely new district of Copenhagen, from early 1990s, a testing grounds for a new model of urban development, with iconic buildings...

JULY 3 - 6 2023, 15:30-18:30

### NORDHAVN – A HARBOR DISTRICT TAKES FORM

Tour Nordhavn, an entire new district of Copenhagen, where new urban development meets former industrial sites, featuring beautiful transformations of silos, sustainable solutions, a harbor bath and a metro line

JULY 3 - 6 2023, 15:30-18:30

### COPENHAGEN – WORLD CAPITAL OF ARCHITECTURE

A walking tour in central Copenhagen takes a retrospective look at the city's industrial past and connects it to the city of today, where street food, climate resilience and harbor...

## ADAPTIVE REUSE

Projects who have won THE RENOVER PRIZE

JULY 3 2023, 16:30 - 19:30

### RETHINKING RESOURCES IN THE CITY CENTER

Stroll through the inner city, experiencing a variety of brutal and imposing structures, which has been profiled and awarded, for their re-adaption and repurposing into hotels, commercial and office spaces.

JULY 4 2023, 16:30-19:30

### RETHINKING RESOURCES IN THE BOROUGH OF AMAGER

Tour the borough of Amager, visiting a handful of sites, which has been profiled and awarded, for their re-configuration from past industrial use into housing and office communities offering alternatives...

JULY 5 2023, 15:30-18:30

### RETHINKING RESOURCES IN THE SUBURBS OF BALLERUP

Journey out to Ballerup, a suburb of greater Copenhagen, for a tour of housing, which has been profiled and awarded for the retrofitting and re-adaption, creating more space and a...

## UNIVERSAL DESIGN

JULY 6 2023, 14:30-19:30

### NATURE, HEALTH & DESIGN LABORATORY: ARBORETUM

Journey out of town to Arboretum, a full-scale out-of-doors HDLA (health design in landscape architecture) laboratory, featuring three accessible, inclusive and health-promoting landscape projects, instrumental to the implementation of UN...

JULY 6 2023, 14:30 - 19:30

### UNIVERSAL DESIGN FOR VACATION TIME: MUSHOLM

Travel west to Musholm, at the far edge of Zealand, to experience the Musholm vacation center – configured with universal design in mind – offering inclusive vacation and recreational experiences...
